AI Assistant

Decision-support suggestions only — always confirm with a licensed veterinarian before acting on them.

I can help summarize a patient's history, suggest differentials from symptoms, check drug dosages and interactions, and surface relevant cases from this clinic's records. What would you like to look into?

What are common signs of parvovirus in puppies?

Recommended vaccination schedule for kittens?

Drug interactions with Meloxicam in dogs?

How to interpret elevated ALT levels in dogs?

Post-surgical care checklist for spay/neuter
